

COUSSINET™

Designer Scarves & Accessories

COUSSINET designer accessories are an inspiration to those who love to express themselves and exude a unique sense of style. Idiosyncratic and eclectic scarves, wraps, belts, knitted accessories, pins, brooches and hats make up the stunning collection created by Melbourne designer Greta Grossberg.

The **COUSSINET** story began in 2001 and has since evolved into a prestigious internationally renowned label. **COUSSINET** was recently chosen by international stylist Karl Plewka and worn by stunning model Lily Donaldson for a shoot in *Italian Vogue*.

The diverse and artistic collection employs beautiful quality materials including woven textiles, hand felted wool, silk, leather, and tulle. The handknitted boleros, capelets, shrugs, mini-cardigans, ponchos, and vests are exceptional, and specialised decorated pins, fabric jewellery and hats can complete any look.

The word "**COUSSINET**" is French for a special pillow or lavender sachet. It evokes something special on the inside which has a gorgeous and unique outer presence. The philosophy behind **COUSSINET** is that outfits can be significantly reinvented and revamped by mixing and matching with unique accessory pieces.

Designer Greta Grossberg has always had a strong passion for scarves and accessories and truly believes that you can communicate your mood and personality through the perfect piece. "I have always made a lot of my own clothes and improvised a very personal look" explains Grossberg. Having started the label after friends showed interest in buying the pieces she wore, Greta saw this as an opportunity to use her creativity as a vehicle for others to express themselves as well.

COUSSINET has an extensive list of stockists throughout the country, as well as overseas stockists in Denmark, Hong Kong, Ireland, London, Milan, New Zealand, Taiwan and Paris.
